Fire Chief Tells Of Fire Prevention

A talk on fire prevention was given before the members of the Good Fellowship club of the First Presbyterian church at its meeting last night by Fire Chief W. P. Cooper.

"Conditions in Richmond are a long way from ideal," Chief Cooper said. "We can thank providence that he have had no more serious fires than we have. In my opinion the fire department here is above par and the equipment we have is good, but we haven't got enough of it and the water supply is poor.

"Ninety-five per cent of the fires in the United States are caused by carlessness. I am an advocate of publicity as a means of education the public against the cause of fire"

Cooper told of the different causes for fire and said that of the four fires of consequence which the department has fought since he has been here all were preventable. One was caused from flying sparks, a second from an electric curling iron, and a third from an electric iron.

Prince of Wales Suffers From Excessive Heat Wave

September 2. Even the inexhaustible energy of the Prince of Wales was partly exhausted by today's blistering heat.

After his experience of Labor day at Belmont Park, where he learned the American public belive royalty is to be petted and not scorned, H. R. H. actually permitted himself six hours' sleep. Rising shortly after noon, he indulged his athletic propensities only by a quick dip in the beautiful pool at the Burden estate.

Monday evening he had motored to the home of Devereaux Milburn, the American polo ace, in Wheatley Hills, and found the dancing and companionship of "Tommy" Hitchcock and 20 to 30 other young men and women of the Meadowbrook set so fastinating that he did not return to his American home until the sun was burning red streaks through the fog that rolled over the green and blue water of the bay. To be exact, it was 6:05 a. m. when the Prince returned.

His equerries and secretaries had turned in long since and they heaved a sigh of relief at breakfast, saying "Now the Prince will surely sleep until late afternoon."

The Prince did sleep six hours, his longest period of rest since his American visit began. On his program was a polo game, a scratch affair at 5:30 on the private field of Howard Phipps at Westbury, then dinner at 8:30 at the home of Mr. and Mrs. Henry Rogers Winthrop, his American hosts by proxy.

WORLD PILOTS MAKE LONG TRIP

By DAMON RUNYON,
(By Universal Service.)

ABOARD U. S. S. RICHMOND (At Bay of Islands, Newfoundland), Sept. 2.—(Special wireless to Universal Service. Radio via Louisburg.)—Bucking a thirty-mile-an hour head wind Lieutenants Lowell Smith and Erick Nelson, American round-the-world flyers, covered the distance between Indian Harbor, Labrador, and Hawkes Bay, N. F., 276 miles, in 5 hours 33 minutes today.

They landed at Hawkes Bay at 3:58, Eastern Standard Time, this afternoon.

The army flyers, hopping off from Ice Tickle, near Indian Harbor in the Hamilton Inlet, at 10:25 this morning, took their time in getting away, as they felt that the comparatively short jump would be easy to negotiate.

Shortly after 10 o'clock the sun was shining brightly and everything was auspicious for a successful flight, when Lieutenant Smith gave the signal to start.

At half past twelve the planes sailed over the destroyer Macfarland, one of the naval escort, which was stationed at Hawkes Bay, Labrador.

R. U. H. S. Eleven Will Play First Game Saturday

First football of the season for the Richmond union high school varsity team will be played Saturday, September 6, at 10 o'clock, at San Rafael with the Mt. Tamalpais military academy team. Rumors are afloat that the military school has a better backfield than ever before in its history and those who follow football are keenly interested in the outcome of the first game. The first game to be played in Richmond will be on September 12, with Oakland Tech.

DAY BY DAY REPORT OF FIRE ROW IS GIVEN

History of Case Traced Since First Stevens' Report Was Given

MEN NOW BACK AT WORK

Dates Show Progress of Fight; Men Now All Back In Former Positions

The following is a day by day report of happenings in the Richmond fire department, after the first report made by J. W. Stevens, fire marshal, asking for dismissal of 12 firemen.

May 27—12 members of the fire department canned by the council, effective May 31.

June 4—Ousted firemen hired day by day as hosemen.

June 10—H. C. Johnston, Portland, appointed fire chief.

June 17—Chief Johnston tells council he has a fine body of men under him, but department is undermanned, and asks for 12 additional men, and request granted.

June 19—Examinations for positions in department held by Chief Johnston and men who were canned receive high grades.

June 22—Johnston announces ousted men will be renamed.

July 8—Chief Johnston resigns.

July 10—Banquet held as farewell to Johnston, in which Jay W. Stevens compliments personnel of department.

August 16—Examinations for officer's positions held by new fire chief, Cooper.

August 22—Result of examination announced. Men who were canned May 27, again receive high grades. All of canned officers are again given officer's positions.

Will Purchase Park Property

Two changes in method of securing property for parks, were authorized by the city council last night upon recommendation of the park and playground commission. The commission had first asked that certain parcels of property be condemned, but last night stated that compromise had been agreed upon. One change means an expenditure of $450 and the other $400.

Start Work Of Widening Streets

Work of widening the intersections on Lucas avenue at Tenth and Thirteenth streets, preliminary to further improvements in that district was begun yesterday under the direction of E. A. Hoffman, city engineer. Temporary improvement of Tenth street between Pennsylvania and Lucas avenues will be made in the spring. Petition to improve the street fully is expected to be placed before the city council shortly.

The last piece of property in the Overland tract on the north side of Lucas between the railroad track and Thirteenth street will be acquired by process of law on the first of next month it was said yesterday by L. Wierda, building inspector. Improvement of the street has been delayed pending serving of condemnation notices on the owners.

Four Garages To Be Built

Four garages are to be built by Richmond men. Permits were issued yesterday to E. Jennings, $50, on Fourteenth between Nevin and Barrett; to L. B. Johnson, $60, on Florida near Sixth; John De Giaconnini, $100, on Thirty-eighth between Cutting and Wall; C. P. Mortensen, $200, on Fortieth between Roosevelt and Clinton.

Stevens "Reports"

During the present recall campaign, the fire department has not been an issue, and it was intended that is should be left out of it, until Jay W. Stevens of San Francisco state fire marshal, appeared at the meeting of the Lions club yesterday making a political speech and attempting to tell the people of Richmond that they should do as he told them, and not what their best judgment dictated.

It will be remembered that in May Stevens and some fire chiefs about the bay, held a days inquiry in Richmond as to conditions in the fire department, and on May 27th brought in a report in which twelve members of the department were "scorched" and their instant dismissal demanded.

A majority of the council, without any consideration, immediately adopted the report, and the 12 men thrown out of their positions, without even being given the courtesy of a hearing.

There are facts in connection with this matter that the people of Richmond are entitled to know.

Here are some of the things in the Stevens report that were said about the firemen:

"Many of the officers were found to be incompetent guilty of conduct unbecoming officers of the department, and absolutely unfit for the responsible positions they now fill."

"Some of those who have been in the service for many years have made little or no attempt to improve themselves so far as their training and general knowledge of fire department affairs are concerned, and have failed to conduct themselves and their commands in such a manner as to give efficient service.

After these men were branded as just above quoted, what happened?. . The fire department was crippled to such an extent that it could not function, but these same men offered their services to the city, so as to protect the property of the taxpayers from fire.

. . . . Everything that has happened since the adoption of what is known as the Stevens report, would indicate that the statements in the report were wrong, and that a great injustice had been done the discharged men.

But at no time have the members of the council who voted to discharge the men, without even a hearing, made one move to right the wrong that had been done.

Nevertheless all of the men canned are again members of the department, and on merit solely.

First came their employment by the city manager on a day-by-day basis, so that the department could operate.

Next came the selection of a new fire chief, and his first move took place June 17th when he told the members of the council that he had an excellent body of men under him who would give their lives in their work, but the department was undermanned, and request made for 12 additional men, which was granted.

On June 19 came examinations held by the new chief for positions in the department. The result was all of the canned men stood at the top of the list, which would seem to disprove the assertions made in the Stevens report.

Chief Johnston on June 22 announced that the ousted men would be renamed as members of the department but not to their old position as officers.

July 8th it was announced that Johnston had resigned and would return to Portland. At the same time Johnston gave out a statement in which he said:

"Richmond has one of the finest bodies of fire fighting men in the country. I have found them to be all excellent firemen. I believe all factionalism has been eliminated."

On July 10th a banquet was given the retiring chief by the members of the department, at which Jay W. Stevens, was one of the principal speakers. At that time he said "The City of Richmond has a fire department that bids fair to be one of the best departments in the state. The announcement of the selection of the new fire chief, Cooper was made at this time.

On August 16th officrs examinations were held by Cooper with the result announced later that the list showed that the men who were canned in May, were again at the top. Chief Cooper has placed these men in officers positions and they are giving excellent service.

It is true the men are back in their postions, but not by any action of council, but because the men took examinations the same as other applicants for positions, and got the high ratings. The same result followed in the examinations for officers.

Just last night at the Fellowship club meeting Chief Cooper said the Richmond fire department was above par.

And these are the same men who were branded as "unfit" "incompetent", and who lacked training.

And still Stevens tells the people of Richmond to keep those in office, who canned men, that every happening since May 27th, proves that the findings of the Stevens report were entirely wrong.

URGES SUPPORT OF BACKERS OF HIS 'REPORT'

Fire Marshal Addresses Members Of Lions Club On Election

WAS NOT 'POLITICAL' TALK

Receives Little Applause At Conclusion Of Bitter Harangue

At the meeting of the Lions club yesterday, although it was a business meeting, Jay W. Stevens, state fire marshal, was present, and made a political talk to the members, that was not very well taken by many of them.

Stevens said that the recall should not win, and urged his hearers to go to the polls Friday and vote to retain the present officials. He said that he was not speaking from a political standpoint, but claimed that the removal of these four officials, who voted to dismiss 12 firemen would be a mistake.

He told of the report that had been filed on which the firemen were dismissed, and asserted that the council should not be recalled because they had adopted the report of the board of inquiry, of which he was the head.

Stevens told of his being at the council, when the report was first read and said he had been insulted, and hooted by a crowd of people, but he was not afraid to come back here again, even if he had to face a hooded mob, armed with guns.

At the conclusion of his political speech, there was but little applause, as many of the members expressed the opinion that the talk was clearly out of place, and was in violation of the rules of the club, that politics should never be injected into it.

Paving Work Is Approved

The report of City Engineer E. A Hoffman, approving the work of paving portions of Macdonald, Nevin, and Roosevelt avenues, on Thirty-fourth, Thirty-fifth, Thirty-sixth and Thirty-seventh streets, was accepted by the city council last night. The street committee reported that the work has been done in a thorough manner and that the job was satisfactory.

Humane Society Makes Report

The report of the humane society, submitted to the city council last night, showed that 46 calls were made during the month of July. The cases involved 433 animals and 145 fowles. Thirty-nine animals were found to have been cruelly treated and 70 fowls.

Amendment To Parking Law Read

An amendment to the local parking ordinance was read for the first time at the meeting of the city council last night making it illegal to park cars in any space set off by parking signs along Macdonald avenue.

Motorcycle And Automobile Collide

A motorcycle ridden by John Sousa collided with the car of M. A. Hays, Richmond realtor, 2216 Macdonald, yesterday afternoon at Sixteenth and Macdonald. No one was injured but the two machines were slightly damaged.

FERVOR

The world is divided into leaders and followers and always will be. One of the qualities that makes a leader is fervor of belief. It is supported by sincerity of opinion and it goes far. All of us like to be led at times, even those outstanding ones who do a great deal of leading.

Three kinds of leading are important. The highest type is true leading in religion. The religious leader must have fervor to a remarkable degree and a capacity for expression, whether in words or deeds. The political leader is an important one, with periodic crusades, and often, but not often enough, he joins forces with leaders in religion, for his desire is to better people in their lives.

The third great type of leadership is in education. Education includes both learning and teaching. Readers in education may be seekers after knowledge rather than those who impart it. The scientist is a leader of thought, whether he digs among test tubes and text books or searches the heavens with a telescope on the one hand, or transmits knowledge thus gained to beginners.

Back of all true leadership there is the inlefinable powerful urge to push forward some cause. In our present imperfect state of humanity, there are honestly and corruptly mistaken causes, but just as surely as one sees a leader in any of these causes, worthy or not, one sees a man or woman with fervor.

We have been asked why some ministers of the gospel become active in politics. We reply that it is because preachers are natural leaders, trained, habitual, innate leaders. They normally seek something and somebody to lead. Making no mistake about the function of a pastor (and isn't pastor only another way of saying leader?) they discover that man's spiritual needs often find expression in such material outlets as politics. So, they throw themselves into politics, but not necessarily into sordidly partisan politics. They are advance guards of thought, and well equipped for it because whereas the political leader too often seeks to drive, the truehearted minister of the gospel tries to lead.

Don't reproach a minister for going out of his field. If more men with the high ideals of the preacher would interest themselves in politics we would hear less about the often unworthy fervor of the politican, and it could not be said that politics is a crime or a shame or a dirty unlovely mess.

EXPEDIENCY VERSUS GUTS

When Charles Dawes added his opposition to the klan to that of J. W. Davis, he did so with full knowledge that he was risking an adverse vote in a state generally presumed to be the strongest klan state north of the Mason and Dixon line.

But a little thing like stirring up political hornets did not give the Chicagoan pause. Hell and Maria, what's the use of a political campaign if you can't have a scrap?

On the other hand, the more minorities that J. W. Davis and C. W. Bryan can contest with R. M. LaFollette and B. K. Wheeler, the better the democratic party's chances of being second instead of thrid on the list of the popular and electoral votes this year.

However, the more important aspect of the Dawes address at Augusta, Me., was his general attack on all radical things, schemes, plans and institutions. Here is an uncomprising foe of everything that sets one class or one section of America against another. Without waste of words, the general tells what he thinks of everything subversive of good Americanism in our polyglot population.

He has to be given credit for sincerity and guts. If he had to choose between time serving and being a badly defeated candidate, he would chuck the chance of election with a few swift and simple phrases that a mule could comprehend.

A REPUBLICAN ARGUMENT

It is with navie simplicity that a democratic correspondent lands in the leading editorial position of our neighbor with an argument in favor of Davis because he was picked by Wall street and other big financial interests as their attorney.

The republican party has long argued that connection with big business was not a scandal unless such connection were intrinsically scandalous. But let a republican seek office who has been attorney for the "big copper companies" or in any way connected with prosperity, and his goose is cooked as far as our democratic friends are concerned.

In practically the first editorial utterance this paper made anent Candidate Davis, it praised his high personal qualities, appreciated his gentlemanly culture and dwelt at some length on his connection with big business as proof of his ability. What we distinctly do not admire is the insincerity of a man or of a political party that will lay its opponents out cold for flirting with prosperity, go into spasms about the poor working man, and then brazenly nominate an scion of the aristocracy.

This is hypocrisy of the type all true American despise.

When Is a Scarf a Shawl and When Is It a Scarf

WHEN is a shawl not a shawl, and when is it a scarf? This is a riddle that might puzzle many of us. The popular notion, apparently, is that a scarf remains a scarf so long as it remains longer and comparatively narrow. When it becomes square or nearly square it becomes a shawl.

But such a distinction does not always hold. It is a fact of history that when the shawl was a novelty in Europe, in 1786, it was six yards long and two yards wide. If such wraps appeared today they would undoubtedly be classed as scarfs. Nowadays we hear of scarfs "of shawl like appearance," and scarfs of the shape of shawls. One of the smartest types of scarfs now is three yards long and somewhat more than a yard the same proportions as those shawls that appeared in 1786.

Many of the large shawl-scarf show trimming only on one, two or three sides. Fringe often appears only on three sides, and sometimes a wide band of velvet appears on one side of a chiffon square.

Last year cashmere and other light-weight woolen shawls were occasionally worn as one of the accessories of some smartly dressed woman's sports attire. But for the most part shawls were regarded as exclusively suitable for evening wear. A deep violet cashmere shawl embroidered in woolen threads was used as a sort of auxiliary motor wrap by one well-dressed young woman, and a few others followed suit. Now the gaily colored wool shawl is pretty sure to be no uncommon sight as an accessory of sport wear. Woolen fabrics of Czecho-Slovakian color and design are made into large fringed shawls of this ilk. The sketch shows a gaily striped woolen shawl that is worn with a sports frock with a black velvet tam or beret.

Building Permits Total $66.680

A total of $66.680 for Richmond building activities during the month of August is shown in the report of Inspector L. Weirda. Forty-seven building permits were issued. Three business buildings, $14,300; 13 dwellings, $43,300, were included in the total. Fees for the month amounted to $224.50, including 27 permits for electric wiring.

WISE AND OTHERWISE

YOUR FAVORITE VEGETABLE

GREEN peas, asparagus and corn on the cob are invariably favorites among American vegetables. When they any note an equal number of votes as prime favorites, peas would have to be given the place of honor, because now and then you will find someone who does not like asparagus, and even oftener one who scorns corn. But it is hard indeed to find anyone who actually dislikes green peas. Fresh green peas are pretty sure of finding acceptance on any bill of fare.

A destin ui hed epicure says regarding his own vegetable preference: "If I had the choice of a dozen vegetables at dinner, I would more often than any other choose celery au jus." That, of course, means celery stewed and served in the liquid in which it has been stewed. In canvassing for preferences you will seldom find celery placed at the head of the list. Yet it is a fact that you may have observed yourself that children very often have naturally a decided preference for celery. A certain child who can be trusted with almost any food—who could even be left alone with a plate of fresh fudge on the table—will nibble fresh celery whenever he has a chance. Even very little children seem to relish its flavor once they get their teeth in it. Unfortunately its fibroid nature makes it unsuitable for the very young child.

Parsnips, perhaps, are disliked as heartily as any other vegetable—with the possible exception of turnips. Yet interestingly enough, as our food canvass showed, there are some people who prefer parsnips to any other vegetable. Two persons out of a group of fourteen recently quizzed confessed to an intense fondness for parsnips, while another confessed to a fondness for any sore of vegetables "excepting parsnips." At least two others of the group admitted to a strong dislike of that particular vegetable. Wax beans seem to have more admirers than string beans. Beets are often given first place and so is eggplant. Tomatoes take first place as a salad constituent, but cooked tomatoes do not seem to be so well liked among Americans.

WHERE IT STARTED

TOASTS

(Copyright, 1920, by the Wheeler Syndicate, Inc.)

Drinking a person's health is a custom handed down from the suspicious ages when no man's life was safe. A man about to drink, had his right hand occupied; therefore his friend drew his dagger and laid it on the table, saying, "I pledge you," meaning he would defend his comrade from drinking while drinking. The pledge, therefore, became a part of the ceremony of drinking in company.

Mix together 1 quart flour, 1 teaspoon salt, 2 teaspoons sugar, 2 teaspoons baking powder; rub in 2 tablespoons butter. Cut fine 1-4 pound citron, seed and halve 1-4 pound raisins. Mix fruit evenly with dry ingredients, make a firm dough with milk. Knead on board for a moment, divide into pieces size of egg, make into long rolls, lay one inch apart on flat greased pans. Brush with milk. Bake in a very hot oven.

CHEESE SOUFFLE

One and a half tablespoon butter, one tablespoon flour, one-half cup milk, one-half teaspoon salt, three eggs, one cup grated cheese, cayenne. Stir the flour in the butter while heating in a saucepan. Pour in the milk slowly and let it come to a boil; add the seasoning, the yolks of eggs well beaten, and the grated cheese. Pour into a bowl and let cool. When cool, stir in the whites of eggs beaten stiff. Pour into small pans and bake in a moderate oven about twenty minutes.

Mix one and one-half cupfuls of cold boiled rice with a cupful of sliced apples and sugar to taste. Bake until the apples are done and serve with any preferred sauce. Other fruits may be used in the same way.

Fear Squirrels In County Have Plague

Suspicion that bubonic plague has made its appearance among the squirrels of this county ,was voiced at a gathering of farmers in this city yesterday when they appeared at the meeting of the board of supervisors with a request that assistance be given in the squirrel eradication campaign that has been in progress here.

The statement was made that thousands of squirrels have succumbed to some unknown malady, and they are at a loss to understand its nature unless it be bubonic plague.

The statement that bubonic pleague might have made its appearance created no little excitement and interest. It is known that in Monterey some malady has been responsible for rthe death of thousands of spuirels the past few days, through the authorities have hesitated to state it might be the pleague.

Horticultural Commissioner Stevens announced that since June 1923, he has distributed 60 tons of poisoned grain.

The supervisors were requested by Ben Burroughs, president of the Contra Costa County Rrab Bureau, to supply aid to Stevens.

Hunting Trip Ends In Death For J. E. Beckwith

John Ellison Beckwith, Jr., of Oakland, was instantly killed Sunday when he stumbled upon a rock, accidentally discharging his rifle. The bullet pierced his brain. Beckwith was on a hunting trip in an inaccessible part of the northern mountains, 90 miles southwest of Yreka, Siskiyou county. With Beckwith were Harley R. Carter, vice-president and manager of the Richmond furniture company and president of the Richmond merchant's association, and two other men who live in the northern part of the state.

Carter walked fifteen miles to a ranger station to obtain aid.

A party of ten men was organized to carry the body over the fifteen miles to the ranger station as the country was too rough for horses. The body was then transported to Yreka and from there to Oakland arriving yesterday morning. Carter also returned yesterday morning.

Beckwith leaves a widow and a 13-year-old baby in Oakland. His widow collapsed when told of the tragedy. Beckwith was the son-in-law of F. A. Carrick, president of the Richmond furniture company. Beckwith was born in Oakland where he had resided all his i

Angered At Girl, Father Shoots Self

MARTINEZ, Sept. 2. Apparently incensed over the actions of the girl's mother in allowing her 14 year old daughter, Laura Sinabaldi to go to a moving picture show when he disapproved of her going, Antonio De Marco, 43, a laborer at the Selby Smelting plant residing with the Sinabaldi family at Tormey, shot Laura Sinabaldi in the right hand and himself received a load of buckshot in the right shoulder, fired from a shotgun in the hands of the girl's father.

De Marco is being held at the county hospital for treatment for his wounds and is being kept under guard, while the girl is at her home with her parents.

Investigation made by Deputy Sheriff R. L. McNamara and Constable J. J. Fox, of Crockett, disclosed that during the evening Monday Laura Sinabaldi requested permission from her mother to attend a moving picture show which the mother granted. De Marco, who is thought by the officers to be infatuated with the girl, objected to the girl's atending the show and an argument ensued which resulted in De Marco drawing a gun and firing point blank at the girl.

Rheumatic Paralytic for Now a Well Woman

Oakland, Cal., Sept. 23, 1923

For years I suffered so from rheumatic paralysis that I was unable to leave my bed. My hands and face were swollen and I had agonizing pains all over. My bladder and kidneys were in a terrible condition and I had pleurisy pain.
A friend having urged me to try FONG WAN HERBS, my husband asked their herbalist to call on me. We bought and cooked some of the herbs at home, and my bladder and kidneys were relieved almost immediately.
I took the herbs for about four months, and words cannot express my gratitude for my complete recovery. I am also happy to say that although I have taken no herbs at all during the past six months, I still remain well.
I gladly give this testimonial to the FONG WAN HERB CO. I know FONG WAN to be a straightforward business man who makes no vain boasts. I also know that he has relieved terrible cases of suffering. I have recommended numbers of persons to buy his herbs, and they have all been satisfied.
I live right here in the heart of Oakland. Anyone who really wishes to take the FONG WAN HERBS and would like to know more about how wonderfully the herbs have helped me, can obtain my address at the FONG WAN office. MRS. G. STAAFF.

Fairbanks Film Two Nights At Wesley M. E.

Douglas Fairbanks' picture version of Alexander Dumas' classic story "The Three Musketeers" will constitute the attraction at two family social nights at the Wesley Methodist church, this Thursday and Friday beginning at 7:45.

Featuring the costumes of the early seventeenth century, this film stands as one of the most impressive and gorgeous photoplays of motion picture history. It is thrilling, romantic, crammed full of adventure and reveals Douglas Fairbanks in a type of work which is in some respects typical of past performances, but on the whole differs from any other interpretation he has ever given.

In this picture "Doug" is called upon for a greater display of histrionic ability than in anything he has done since leaving the speaking stage for pictures. He has given as ideal adaptation of the story by Edward Knoblock, noted dramatist, and Fred Niblo as director has developed every situation in a way that enabled Fairbanks to make the most of it.

From the standpoint of photography "The Three Musketeers" is one of the most beautiful pictures ever made. Arthur Edeson, the cameraman has done much to contribute to the success of the photoplay.

Those who have read "The Three Musketeers" will have no regrets to express when they view it on the silver sheet, for Fairbanks has reproduced the story with a faithfulness and fidelity that is very gratifying. The presentation of "The Three Musketeers" is splendid, preand accompanied with music especieded as it is by a colorful prologue ally prepared for the occasion.

Dr. Baker, said yesterday that as this is a twelve reel picture two machines will be used so there will be no intermissions.

Dr. Baker started the family night social and entertainment nearly a year ago and it has proved a remarkable success in attracting crowds that gather every Friday night. This is the closing week of the annual conference and the whole church and its friends are expected to rally Thursday and Friday nights this week in a big happy, get-together social time. The freewill offerings of the people makes these big social gatherings possible.

Substation Operators

ELECTRIC energy generated in the hydro and steam plants reaches these men over high voltage lines. Thru the substations they distribute it for use on farms, in factories, and homes.

They are responsible for a continuous flow of energy in their respective territories. Should trouble occur on the lines or an extra supply be needed in a certain section, these alert, quick thinking men can be relied upon to keep the "juice on the lines."

They pride themselves on their record of continuous service and their loyalty to that cause is your further guarantee of a continuous flow of energy.

These folks are a part of the 12,000 employees and 40,000 Security Holders in California, who are interested in the success of this Public Utility, which is owned, operated and managed by Californians.

San Rafael Ferry Carries Heavy Load Over Holiday

A new record for volume of traffic was made on Labor day by the Richmond-San Rafael ferry company. The three boats of the ferry company made an average of 200 cars per hour, transporting 3248 machines during the day, and 14,680 passengers.

For the first time in the history of the ferry motorists were forced to wait, some as long as three hours. The rush was caused, according to Mose Moch, manager of the company by the fact that the motorists who had been away during the week-end holidays returned at nearly the same time Monday afternoon and night.

Three Arrested On Rum Charge

Chief Prohibition Enforcement Officer Clyde Laird made the Sunday and Monday holiday uncomfortably dry for three individuals and perhaps for their patrons as well.

In Concord he took into custody William Morenini, restaurant keeper, on charges of sale and possession of intoxicating liquors. He was taken before Justice of the Peace E. P. Jackson and was released on bail.

In Antioch Laird found liquor in the possession of Richard Arati, a sheet metal worker. He placed him under arrest on a charge of illegal possession of intoxicating liquor. He was later released on bail in the sum of $500, fixed by Justice of the Peace Frank L. Glass.

J. Galli of Oakley, giving his occupation as that of laborer, was charged with possession and taken before Justice of the Peace Henry Heidorn of Knightsen. Galli furnished bail and was released from custody.

All three were taken before Justice of the Peace Frank L. Glass yesterday morning and entered pleas of guilty. Each were fined $400 which was promptly paid.

McDonald, a Richmond painter was placed under arrest Sunday afternoon by Deputy Sheriff J. M. Smiley and charged with driving an automobile on the public highway while under the influence of intoxicating liquor. Wm. Funk, riding in the machine with McDonald, was charged with being drunk and is to appear before Justice of the Peace John Roth for trial while McDonald was lodged in the county jail on the more serious charge. Both machines were considerably damaged, McDonald's being in worse condition than Young's.

Mail Carriers Ask Living Wage

The need for a living wage for postal employes was emphasized at the joint convention of the California association of postoffice clerks and letter carriers held in Berkeley. The convention ended Monday. Mrs. Hazel Merrifield of Vallejo was re-elected president for the year; L. A. Darling of Modesto succeeded J. A. Hounsell of the Richmond postoffice as vice-president. The letter carriers elected Warren C. Day from San Luis Obispo president.

Asserting that postal employes were unorganized when the Kelly-Edge bill, passed by the last session of Congress, was vetoed by the President, Carl P. Driscoll of Berkeley, vice president of the national organization, urged action be instituted for a substitute bill in the next session of Congress. The Kelly-Edge bill carried a $300 per year increase in salary instead of $600 as requested by the employes.

"No one can say the postal employes are disloyal," said Friswold. "They are loyal in the serene hope that justice will be done them by Congress in December."

Daniel R. Sullivan, national committeeman for the letter carriers seconded Griswold's plea.

"We want a salary," he said, "sufficient to maintain the position we believe we hold in the commercial life of the country. We are underpaid and we want more money and we want it now."

Superintendent of Mails Luther A. Dunlap of Berkeley was given an ovation when he introduced E. J. Curran, chairman of the meeting and the employes' choice for postmaster to succeed R. A. Berry.

William A. Spooner, union labor representative, also spoke.

SUCCESSFUL HITTER GIVEN COIN SHOWER

El Cerrito Man Ties Score For His Team and Wins Financial Approval

Money was showered upon Kelley, pinch hitter for El Cerrito, by excited fans, when he brought in camp with the run that tied the score in a Labor day game at Albany. The score stood 3 to 2 in favor of the Albany team at the Albany diamond in the ninth. With two men out Camp, star pitcher for El Cerrito, got a two bagger, and was scored by elley. The game went to sixteen innings at 3 to 3 and was called on account of darkness. A feature of the game was the consistent hitting of Lenzen for El Cerrito.

Las Sunday the El Cerrito team played in East Oakland against the Dew Drop Markets, defeating them 7 to 5. Atkens, pitcher for El Cerrito was the hero of the game, pitching a five hit game. He also made a home run and two three base hits. Bishop and Judd of El Cerrito deserve mention for their work. Next Sunday the El Cerrito Team will play Point Richmond at the Point.

The box score, Labor Day.

New Tax Rate to Be Fixed at $2

Though the city council was expected to consider the fixing of the tax rate at its meeting last night, the topic was not brought up. According to City Manager James A. McVittie, the tax for this year will be set at $2. Under the new city budget, a tax of $1.85 is necessary, while library and school tax will be fifteen cents more. This will make the tax rate for this year fifteen cents higher than that of last.

Formal appointment of fire officers also was overlooked by the council last night, though the appointment will probably be made in accordance to the list made out by Fire Chief W. P. Cooper.

HOMER LOSES FOR OAKLAND; SEALS VICTORS

Salt Lake Stages Rally and Wins From Angeles; Portland Is Victorious

SEATTLE, September 2.—A home run settled things in today's game giving the first of the series to Seattle, 2 to 1. The game was close. Eldred made the home run in the sixth. The first run for the Indians was brought in in the fourth on a two base hit by Rohwer. The Oaks scored their one run in the ninth, when Cather tricled, but the threatened rally died, and left the Oaks stranded.

SAN FRANCISCO, September 2.—The Seals took the first game in the series today, score 6 to 2, from Sacramento. Pat Shea turned in another well pitched game, although he had some narrow escapes, and was saved only by perfect fielding in the first innings. Hem Hemingway served as manager for Sacramento because Charles Pick argued with a Los Angeles umpire last Saturday, and is temporarily retired from the game.

LOS ANGELES, September 2.—Staging a desperate last inning rally Salt Lake overtook a lead of five runs and won the opening game from the Angeles here today, by the score of 7 to 6. The Bees scored their seven runs in the last innings of play. Doc Crandall, one of the leading Angel twirlers, was pulled after the Salt Lake crew had scored five runs. The Bees took two more off his successor, Root.

PORTLAND, September 2.—Portland won the first game of the series from Vernon today, 7 to 6, in a ten inning battle. Hannah's error in trying to pick Cechrane off third following a walk and Lecerenz' double decided the issue.

Elks to Hear Talk Of Predatory Game

A discussion of the predatory animal situation in California with reference to game will be given before the regular meeting of the Elks lodge September 23 by J. Bruce, lion hunter for the state fish and game commission. Pinole members of the lodge will be the committee in charge of the clam dinner to be served as part of the special program for the night.

The committee includes Jack Silva, Frank Silva, William Silva, Louis Silva and W. J. Lewis.

S. O. Volleyball Team Victorious

The Standard Oil company volley ball team took the Y. M. C. A. team to an merciless drubbing last night at the Y, but the Y boys are undiscouraged and intend soon to stage a comeback. The scores; 15 to 2; 15 to 6; 15 to 0.

Today is the day of the regular business men's gym class and the business men will practice at the Y gymnasium.

Last Rites For Ben Buttignoni Given Today

Funeral services for Ben Buttignoni killed by an electric shock last Friday, were given Monday, under the auspices of the Austrian Military and Benevolent society. Buttignoni was a native of Austria, and it is believed that his widow, Anna, and three children are now on their way to the United States, where they believe they will join the husband and father. Buttignoni leaves a brother, Charles Buttignoni, of El Cerrito.

The funeral cortege left the Wilson and Kratzer chapel at 1:30 o'clock. The officers of the Austrain society escorted the remains to the Woodman hall, where services were held by the lodge. The remains were taken to St. Mark's catholic church for services at 2 o'clock. After the church services the society, headed by a military band, marched to Sixteenth and Macdonald, where automobiles were provided to take the friends and relatives of the deceased to the place of interment, St. Joseph's cemetery.

County Tax Rate Fixed at $1.98

The tax rate for Contra Costa county for the year 1924-25 was fixed by the supervisors at $1.98.

The rate is based on figures compiled by County Auditor A. N. Sullenger on an assessed valuation of $77,429,304. The total assessed valuation as reported by Assessor Meese is $86,032,560, and deducting 10 per cent for anticipated delinquencies the auditor figured that the tax rate upon the valuation of $77,429,304.

The rate of $1.98 is 20 cents less than that of last year, and the reduction is caused through the elimination of the 20 cents imposed last year for American Legion Memorial buildings.

The rate is distributed as follows:

General fund	.30
Hospital fund	.138
Salary fund	.17
Grammar schools	.141
High schools	.175
Road fund	.35
County library	.06
Interest and sinking Cohrtuouse	.015
Interest and sinking Highways	.002
Advertising	.002
Weimar Joint Hospital	.10
Bond Road Maintenance	.09
Total	$1.98

The rate for incorporated towns will be 35 cents less than the above rate through the elimination of the road fund.

SECOND DEGREE WORK HELD BY MASONS

Second degree work was conducted last night at the meeting of Alpha Lodge No. 431 of the Masons. Hut Brown presided at the meeting.

Secure More Than 4500 Signatures to Bridge Petitions

Approximately 4500 signatures, far more than the number required to invoke initiative proceedings, have been secured to petitions calling upon the supervisors to grant a franchise for the bridging of Carquinez straits to the Northern California Development company, or submit the proposal to a vote of the people of Contra Costa county.

The petitions are to be filed immediately and will come before the supervisors for action on September 15. At that time the supervisors may grant the franchise, or they may take action looking toward submitting the proposal to a vote of the people.

The Northern California Development company is the successor to the San Francisco Transit company which originated the project of ing the straits, and has acquired from that company complete plans and specifications for the proposed bridge. It is thus equipped to begin immediate construction work. It has been announced, too, that the company has no stock or bonds to sell.

The bridge is to be constructed from Eckley to Dillon Point, a distance of 3000 feet, and the cost is placed at $2,500,000. The bridge charges are fixed in the proposed franchise ordinance, the rate for automobile and driver being fixed at 50 cents, with a charge of 5 cents for each additional passenger. This is approximately half the present ferry charges. The rates are subject to change each year by public authorities and it is expected they will rapidly decrease.

HERB SPECIALISTS

TO WHOM IT MAY CONCERN:
In reciprocation of the wonderful cure effected through the medium of Dr. Wong Him's herbs and his thorough knowledge of every human ailment, I desire to state briefly the terrible sufferings experienced by myself for other thirty years, thus guiding anyone who may desire relief from attacks of any nature:
I had been afflicted with cancer and Bright's Disease, also catarrah of the head for a period of over thirty years. Learning of the extraordinary cures resulting from the herb treatments of Dr. Wong Him'. I decided to seek relief it possible through this course, being to some extent skeptical, due to failures of other eminent specialists to effect any amount of relief.
A complete treatment of the above herbs have resulted in relieving me entirely of these affliction and my head has been cleared of all traces of catarrh. Pains in back and headaches have ceased and am again able to enjoy perfect health.
The above has been absolutely unsolicited and my only home is that same may prove of great benefit to all sufferers who may read it.

Booth Tarkington Story Showing At California Today

Rudolph Valentino has three big love scenes in the motion picture version of Booth Tarkington's story, "Monsieur Beaucaire," coming to the California Theatre, starting today. Two of them are with Bebe Daniels and one is with Doris Kenyon. All three are what studio officials term "high-powered."

Valentino proves, in his three love scenes, that he has not lost any of the ability to make love, which has made him one of the most fascinating and compelling screen stars of today. His first scene with the Princess (Bebe Daniels) ends unsuccessfully and sends him off to Bath, England. There he meets the lovely Lady Mary (Doris Kenyon) and the heart of this young Frenchman flutters momentarily. But his flight of fancy for the English lady also ends disastrously and back to France he goes to find that the love which he once held for the Princess still burns in his breast. The final love scenes between the Duke and the Princess is said to be one of the most tender and most picturesque ever photographed for a motion picture. While the two lovers, in the Gardens of Versailles, are locked in each others arms, King Louis XV and his court parade down the famous steps in the gardens, while sparkling water plunges down the cascades. It is a scene of great beauty.

VISIT HEALDSBURG ON HUNTING TRIP

Mr. and Mrs. D. Erickson, Mrs. V. Swenson and Marguerite and Clarence Swenson, spent the weekend at Healdsburg, on a hunting trip.

Pola Negri in 'The Spanish Dancer' Richmond Today

The old Spanish gowns worn by Pola Negri in her latest Paramount star picture, "The Spanish Dancer," which will be on view at the Richmond theatre starting today, constitute a vertaible fashion display, which will enthuse almost every woman screen fan. Some of the costumes worn by the famous star in the scenes taken in the gypsy camp show the strong influence which the Moorish invasion exercised over Spanish life even after it had been repulsed. Later in the story, when Pola Negri as Maritana, the gypsy girl, becomes the wife of Don Cesar, she wears costumes which for sheer beauty have probably never been equalled by the gowns of any other period in history.

Kathryn Williams, who plays the role of Isabella, queen of Spain, displays gowns designed from those shown in the hundred odd pictures which Velasquez painted of that famous queen. A number of ladies in waiting also appear in the picture. Seven different gowns were designed for each. In "The Spanish Dancer," Antonio Moreno is featured. Heading a strong cast are Wallace Beery as King Philip, Gareth Hughes an armourer's assistant, Adolphie Menjou, a powerful minister in the Spanish court — Edward Kipling, Robert Brower and many others.

"Flying Finance," a rip roaring comedy chock full of laughter, completes one of the best bills offered this year.
